INFORMATION AND DIRECTIONS

The glycolic extract of Hamamelis is rich in a particular tannin with astringent, whitening, anti-reddening properties. In synergy with the almond oil and extract of glicirrizia glabra, HAMAMELIS CREAM is definitely suited for easy redden skins, and is a great home defence against minor burns and insect bites. Attenuates also other troublesome skin sensations. Excellent as a soothing in cases of particularly delicate or exfoliated sensitive skin and in case of typical manifestations of skin reddening caused by external agents. Apply a sufficient amount of cream on the affected part 2/3 times a day. Massage gently until completely absorbed.
