INFORMATION AND DIRECTIONS

Rich in firming and nutrients substances, HIBISCUS CREAM NIGHT & DAY is an anti-aging cream formulated to combat the signs of aging, that after 26/7 years of age can already affect the skin. HIBISCUS CREAM NIGHT & DAY fights free radicals. Its undeniable effectiveness against wrinkles is derived from hibiscus extracts (Myoxinol). Myoxinol is a patented complex of oligopeptids obtained by bioconversion of native protein from the seed of hibiscus. 1. esculentus. These botanical peptides combat wrinkles in a similar way to the botulinum toxin, inhibiting the mechanical factors responsible for the appearance of expression lines on the face. This protein complex, with antioxidant and anti-aging is exalted by a combination of active ingredients contained in HIBISCUS CREAM NIGHT & DAY: coconut butter (nourishing and moisturizing), ginseng extract (stimulant) and finally the seaweed extract with strongly stretch properties. Use it "secundum arte"

NOTE: The products can be modified in order to improve its functionality.
