Appereance: gel

pH : 4,86 +/- 0,1

Fragrance : essential oil lemon

Colour : light brown

MANUFACTURE

Cold-produced with open-air mixers in in stainless steel containers suitable for the processing of the product.

PACKING

Packed in a controlled environment with qualified staff.

PACKAGE

Tiziano glass vase 50 ml with lid

EXPIRATION

PAO (Period After Opening) 6M

INFORMATION AND DIRECTIONS

The synergist of the Ursine grape (natural depigmentation action of the carbutyl) actives, the Achillea Millefolium extract (extractive, unsorted, cicatrizant), the extract of Ginkgo Biloba (anti-aging microcirculation agent), Lemon essential oil (bleaching activity), effective progressive skin depigmentation, giving brightness, hydration and contributing to a substantial reduction in wrinkles.

Suitable for normal, mixed and impure skin, in the presence of hyperpigmentation.

How to use: apply the gel with delicate massage, twice a day on the skin well-cleaned on the affected and surrounding part. The product can be used up to the disappearance (or brightening) of skin patches, the first results can already be seen visibly after about 30 days of application.

No preservatives, without PEG, obtained from the collection of spontaneous plants.

Active principles:

- Ursine grape extract has interesting depigmentation activities that are very useful for the treatment of hyperpigmented facial areas.
- Achillea millefolium extract showed brightening and disarrous action and, above all, it has a marked improvement in skin microcirculation.
- Ginkgo balboa extract has a strong activity on the skin microcirculation and is particularly active in combating the harmful action of free radicals.
- Essential oil of lemon is very much used as a lightening in case of skin stains.
